Percentage - 78 %

PROJECTS

Real Estate Mobile App - Android and IOS

- Spearheading the development of a cutting-edge real estate mobile application using Ionic with Angular, incorporating API integrations to enhance functionality and user experience.
- Implementing dynamic UI designs to showcase reels posts and additional features, ensuring a modern and engaging interface for users.
- Collaborating closely with cross-functional teams to ensure seamless integration of front-end components with backend systems, optimizing performance and functionality of the application.

Financial App - Ionic Framework with Angular Js

- Developed a feature-rich mobile application using Ionic framework with AngularJS, seamlessly integrating APIs for enhanced functionality and dynamic user interfaces. Employed Ionic's robust capabilities to create a responsive and intuitive UI while facilitating seamless communication with backend systems through API integration.
- **Achievement** : Successfully deployed and currently available mobile app on the Google Play Store, demonstrating proficiency in mobile app development and deployment processes
- **App Name** : SVCF.LTD - (PLAYSTORE)

Commercial Websites - React JS

- Lead development of a dynamic commercial website using React.js and JavaScript, prioritizing user-centric design and performance optimization. Proficient in HTML, CSS, and Material-UI, ensuring a responsive, visually appealing interface that enhances overall user satisfaction.
- **Reflective Achievement**: Reflecting on the past year, this project highlights my commitment to utilizing innovative technologies for creating impactful online experiences. The commercial website stands as a testament to my skills in building and maintaining dynamic web platforms.
